Yang Xian, male, Ph.D., Senior experimentalist, postgraduate tutor. Major: Digital Media. Research direction: Digital media, Interaction design. Reviewer of SCI/SSCI-indexed Journals. Distinguished expert of a listed company. Members of national key laboratories and national teaching teams. In the past 5 years, he has published 13 research papers, of which 8 are indexed by SCI/SSCI, 5 are indexed by CSSCI/CSCD. In the past 5 years, he has obtained three authorized invention patents, he has led a total of 13 projects, including national and provincial level projects. He also instructed students to participate in several college students' science and technology innovation projects, instructed students to participate in national design competitions and won more than a dozen awards. Currently he leads the team in the direction of interaction design in the Cognitive and Interaction Laboratory of Guangdong University of Technology, providing design and technical solutions for enterprises.
