Exchange Studies at HKR

Kristianstad University, or HKR for short, is beautifully situated in southern Sweden. The distances are short here, between students and staff and between the university and the working life. Students are our most valuable resource.

Kristianstad University

Our vision is to be the best university in Sweden in training and educating students for their future careers. Our students acquire not only the knowledge and skills that are most in demand on the labour market but also those that fulfil the needs and requirements of a modern scientific community.

We pride ourselves on close contact with our immediate environment and also between students and staff. Focusing on training and education, we have established an excellent reputation for a range of programmes and courses that satisfy the needs of the labour market.

Our trips are meant to create connections between the students and to offer them the opportunity to share unforgettable experiences.

"Arriving at the Högskolan was really nice. Karen from the International Office welcomed us and we felt home from the first moment. The university is much bigger than my home university but much more friendly with all the trees and all the nice buildings. The people are all very nice, both the teachers and the students. You can find help even for the most stupid questions"

Sweden

Sweden is one of the largest countries in Europe, with varied scenery and climate. From north to south you can find extensive forests, numerous lakes and a long coastline.

The landscape as well as the climate changes a lot, from the wild and colder regions of the north to the milder and flatter landscape of the south.

Sweden is not only forests and lakes but a modern and fast developing country. In a nutshell, "Sweden is a country of opportunities offering a high quality of life with the human and nature in mind. (Swedish Institute)".

Skåne

Skåne is the southernmost region of Sweden. Danish until 1658, it still keeps a bit of Denmark in its flag and in the "Skånska" the dialect spoken in the area. Together with the Danish Zealand, it belongs to the Øresund Region, one of the fastest expanding areas in northern Europe. It is the most populated area of Sweden but you can still find wild nature, lakes, forests and small villages along the coast.

Malmö, the third largest city in Sweden, is the main centre of Skåne. Thanks to its connection to Copenhagen through the Øresund bridge, the city is quickly developing and is becoming an important centre for all the Scandinavian countries. Modern and old at the same time, Malmö offers a great variety of activities for all tastes.

"Before studying in Sweden, my impression about Sweden is that it has a prosperous economy, advanced techniques in ecological environmental protection, a perfect welfare system and cold weather. Now, during my 6 months of living here, studying and travelling around Sweden, I have seen all its magic and I really appreciate the friendship and kindness of the Swedish people"

Zhang Hongxia, China

"The whole Skåne region is really nice and you can find a lot of small idyllic villages at the sea. I loved to make bike trips to various places"

Carmen Winter, Germany

"I stayed the best semester in my life at Kristianstad University. I was supposed to stay only 1 semester, but decide to stay 1 year. Kristianstad is a small city that you can do whatever you want - by foot or by bike. There are a lot of beautiful nature and landscape surrounding the city. You can find whatever you want in the center - restaurants, shops, pubs and clubs." Julian Soncin, Brazil **Business**

Kristianstad

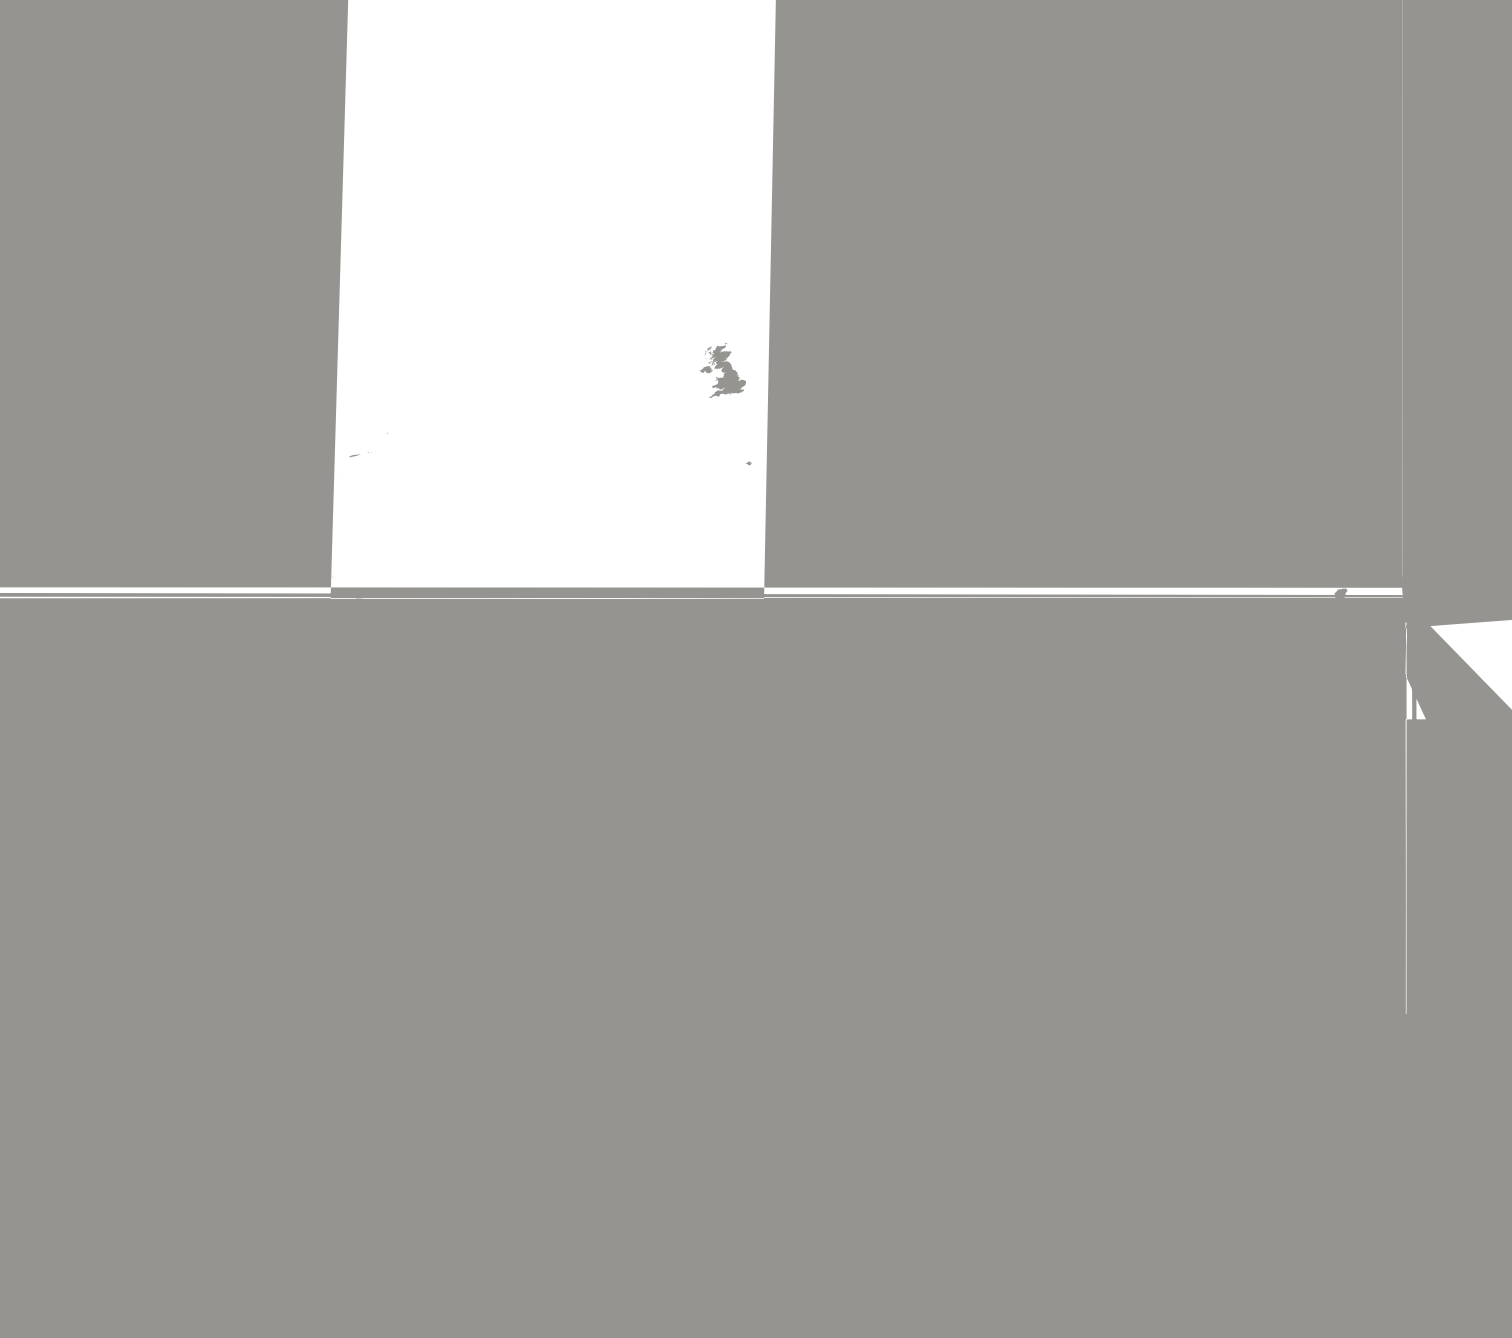

Situated in the north eastern part of Skåne, Kristianstad is the main centre of the region. The town combines the modern and the old and is situated in an area of great natural beauty. Kristianstad is also known for its cosy cafés, restaurants and shops.

Kristianstad municipality has a wonderful Biosphere Reserve known as Vattenriket, the Kingdom of water. Naturum, a newly-built nature centre, is situated close to the town centre and provides a number of displays illustrating the great biodiversity of the region. Here you can also enjoy beautiful views over a cup of coffee.
